

Dear Roger,

With regard to your telephone call, I would like to clarify the following facts about Mr Beesley and his lack of disclosure during Council planning meetings involving himself and Anthony Ramsden.

1 : Mr Ramsden and Mr Beesley attended Mason meetings where they arrived together, signed in together and left together!

2 : John Beasley is God Father to Ramsden son Archie.

3 : John Beasley was a Director and investor of Ramsden`s company Williamson & Treadgold, before he was a councillor.

4 : John Beasley and Anthony Ramsden are friends and formally worked together at the Council.

5 : I have attached a Police statement in which Ramsden states under oath the above.

As you know Anthony Ramsden is a three time bankrupt and was jailed for five months for trading as an undisclosed bankrupt. I am amazed that John Beasley has not also been in court for misleading the Council and helping his friend with planning consent. I do feel that this lack of disclosure is very concerning and should have been investigated by the police some time ago.

Regards
